SUSTAINABLE CARPET DESIGN BY EGE

---

---

Rethink the essential

# GREEN ALL THE WAY THROUGH

Legend is Cradle to Cradle Certified™

## We turn a bottle into a tile backing

A water bottle contains a vital resource for our wellbeing. But did you know that the bottle itself has lots of applications and that we have managed to utilise one of them by recycling used water bottles into a patented Ecotrust felt backing for carpet tiles?

An innovative production technique turns bottles into a soft yet strong PET felt material that is long lasting and has great acoustic performance. PET felt is both recycled and regenerable.

## From regenerated fishing nets to tile faces

Fishing nets account for one tenth of the waste in the ocean. Abandoned fishing nets can drift for months or years and be a threat to sea life. At ege carpets we use Aquafil's ECONYL® yarns produced from used fishing

nets. Once the fishing nets are collected and cleaned, they are physically and chemically broken down and reborn as strong and hardwearing yarns for carpets. The yarns are both regenerated and regenerable.

# ENVIRONMENTAL FRONTRUNNER

In 2015, ege carpets was awarded the prestigious National Pioneer Certificate by The European Commission for being one of the first Danish companies to register with EMAS in 1996.

Environmental responsibility lies deep in our hearts, and we are environmentally conscious all the way through. That is why both the face and the backing of our carpet tiles are produced from recycled or regenerated materials. However, we are not only green in the product itself – but also in our sustainable and innovative production processes.

When a company wishes to make a difference in the environmental sphere, it is important to take the lead and do things that other companies do not. We are still the only EMAS certified carpet manufacturer in the world. EMAS certification sets higher requirements every single year ensuring that our environmental initiatives continuously improve. Since 2007, thanks to EMAS, we have, for example:

- reduced our CO<sup>2</sup>-emissions with 48% and aim at reducing it by 50% before 2020
- increased the number of Cradle to Cradle Certified™ products to 40 and aim at increasing this further in the future
- increased the renewable energy purchase to 88% and aim at buying all our electricity exclusively from renewable resources by 2020

# WE LOVE PEOPLE

**Carpets are our products, but people are our primary raw material.** We have a clear, value-driven focus on CSR. ege carpets is a workplace at which health and safety are always prioritised. We are opposed to discrimination and we work to create equal opportunities for everyone, both inside our company and externally. We are engaged in the local communities, where we manufacture our products – we seek to be a responsible company, which provides jobs and growth. Our work with CSR covers a wide range of areas. First and foremost, however, CSR is about respect and responsibility. Respect is something you give. Responsibility is something you take.

---

# OUR STORY

**Environmental issues are not just about things looking good on paper.** We are also concerned about tomorrow and the Earth's resources. It involves people and ethics, as well as the big – and the small – questions. When every company starts to think this way, things will really begin to change.

As a responsible manufacturer, we are of course subject to business management regulations. However, we regard certification as an opportunity to go beyond legal requirements, regulations and obligations and achieve a higher level. We do our utmost to meet our own ambitions to improve sustainability within the company. By also qualifying for a large number of certifications, we wish to be a role model – and thus ensure that we are always at the leading edge of the carpet industry. CSR standard DS 49001 is an excellent example. We are the only carpet manufacturer in the world to have been awarded this certificate. When it comes to CSR, we are striving to become the world's leading carpet manufacturer.

#### **The designer**

Carol Appleton. Born in 1961. Holds a degree in Textile Design and Design Management from the University of Manchester. Experienced Textile Designer and Creative Director.

## **The collection**

Forests are the setting for many folktales and legends. In these dark, mysterious places, we can lose ourselves then stumble upon their hidden secrets.

The saturated smell of the ground, the flashes of light in small open spaces and the mist surrounding it all are fascinating and intriguing. However, the magic of the ancient woodlands lies in our connection with trees as they connect worlds and represent life and wisdom.

Legend is a contemporary and honest interpretation of traditions, folklore and the enchanted wood. Its rich multi-level loop texture reflects the coarse mix of tree bark, twigs, moss and leaves creating a blanket of simple organic patterns. With Legend, we bring the layered, natural structures of the forest floor into the commercial interior.

The pinpoint details of grey and black space dyed yarn enhance the visual texture, disguise seams and assist soil hiding.

Through Rune, Myth and Spell the collection is organised into three co-ordinated patterns and tonal groups for a harmonised look. Modular and broadloom options offer practical possibilities for coordination and though the designs stand beautifully alone they can be used together to create patterns, neighbourhoods, way-findings and zones.

Legend is your truly green choice as the tile backing is produced from used water bottles that are recycled into our patented and long lasting Ecotrust felt backing with great acoustic performance. All tile backings are also Cradle to Cradle™ certified. The ECONYL® yarns are produced from used fishing nets that are reborn as strong and hardwearing yarn for textile flooring.

rune

## Rune

Rune has its roots in rituals and symbolic marks with a hand-drawn quality. Metal amulets and ornaments combined with the mossy covered bark of the Silver Birch tree have inspired the character and colour palette of Rune, which comes in nine light and soft shades.

myth

## Myth

Myth takes inspiration from ancient forests. The riven texture of tree bark plays with the abstract framework of a dense woodland. Inspired by the darker barks of Blackthorn and Ash, Myth comes in nine mid-toned shades.

spell

## Spell

Spell is from the dark side. Flashes of bright alchemic colour reach through the darkness and dissolve across the floor. Spell is available in nine shadowy colours infused with Cobalt, Olivine, Amber and Quicksilver.

## The power of blends, pile heights and the shimmer of silk

At ege, you will find so many functional qualities, aesthetic colours, beautiful patterns and cool design collections available as tiles and broadloom. You will find a wide range of flat woven qualities and shags in a wide palette of solid colours as well as tufted cut and loop pile constructions with amazing design options thanks to our advanced production technology.

The wide range of different qualities and colours means that we can help you set new standards in floor design by combining

different collections into creative and distinctive design solutions that will fit practical needs, tastes and any kind of budget.

Create the perfect balance in your interior with the power of colours and an interesting mix of soft and hard materials. Use the carpet as one of your key building stones in creating the atmosphere you have in mind not only in terms of design and colour, but also in terms of texture and feel. Try different carpets for different rooms and areas or use creative combinations to move or guide people.

## Technical specifications

Legend comprises three textured designs, each in 9 architectural colours. The colour palette is structured around light, medium and dark tones, which can be used in combination to reflect the social aspect of the office space.

The unique pattern, colour and size possibilities can be used alone or combined with creative freedom. Mix and match the Legend collection with our other collections to get a truly unique combination of colours and textures. Legend is available in 48x48 cm carpet tiles, 96x96 cm carpet tiles, Figura and as broadloom.

All this with:

- 3 unique designs
- 27 colours
- Multi-level loop structure
- Tiles, broadloom and Figura
- Undisputed performance standard EN 1307
- Performance classification to fit any need: heavy and extra heavy use
- 24-hour sample service
- Dispatch within 2 weeks from receipt of order
